

TRANSFORM YOUR IT DEPARTMENT

CLOUD NETWORK SPECIALIST
LEVEL 3 APPRENTICESHIP

Arm your IT department with essential Cloud Network expertise

Your Cloud Apprentice will be a trouble-shooter and master problem solver. With this programme, your workforce will become specialists in cloud systems.

Enhance the technical expertise of your team

QA's digital apprenticeships can help you access, recruit and onboard diverse new junior talent, and equip your team with the knowledge and skills to support on-premise and cloud based technologies.

We follow a Cloud first curriculum

This programme follows a Cloud first curriculum developed to ensure that learners are equipped with a fundamental understanding of both on-premise and Cloud based networking in a Microsoft Azure and AWS environment.

Equip your team with unrivalled IT Mastery

Get the skills that your team needs to resolve faults, deal with queries and meet both your businesses needs and help your clients.

An understanding of a range of principles and protocols

Learners will gain a clear understanding of the principles, protocols, services and systems that form on-premise, Cloud and Hybrid network Architectures.

A fully funded programme designed to transform your talent and workplace

Cloud Network Specialist

Level 3 Apprenticeship

Build the skills and capabilities you need throughout your organisation to resolve various issues, network cabling and hardware and assisting in the deployment and management of cloud-based services.

Upskill or reskill your existing workforce with the latest cloud networking skills and create network technicians for modern cloud based networks.

Recruit and harness a new talent pathway – QA can help you cost-effectively recruit diverse, ambitious talent into your business to help you build a pipeline of networking talent.

Learners will gain a clear understanding of the principles, protocols, services and systems that form on-premise, Cloud and Hybrid network Architectures.

This programme is suitable for roles including:

- Network Support Technician
- Data Centre Support Technician
- Network Operative
- IT Field Technician

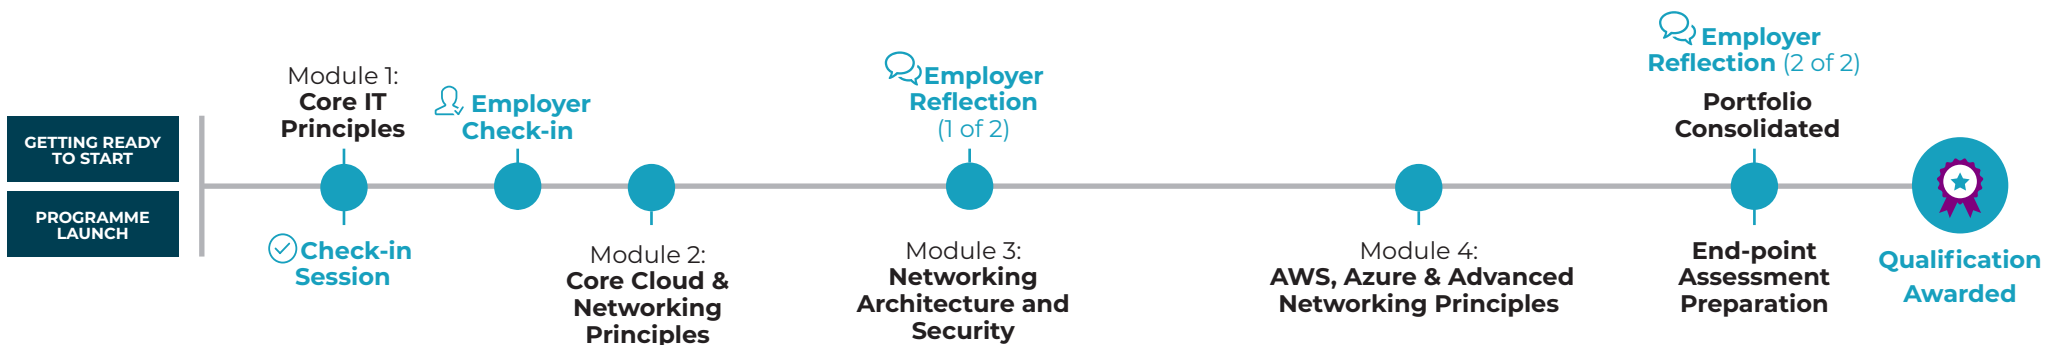

We offer learners a free of charge exam voucher for each certification, should they wish to attempt the exams. Optional certifications include:

- AWS Certified Cloud Practitioner
- Microsoft Azure Fundamentals (Exam AZ-900)

QA provides a voucher for learners to take optional certification exams at no cost, and is valid for the first sit only.

Tools & Technologies: AWS, Microsoft Azure and Google Cloud

Typical Programme Duration: 13 months (+ 4 months for End-Point-Assessment)
