

Agile Accelerator

Our bespoke Agile Accelerator programme offers a two day training workshop with your team, followed by a day's onsite consultancy with an expert Agile Coach, designed to ensure your team can accelerate to agility.

**Accelerate your team's agility with two simple steps,
thanks to the QA Agile Accelerator.**

Accelerator

So why choose the QA Agile Accelerator?

Our model provides a more effective way of accelerating the adoption of the Agile mindset. The focus is on building skills and knowledge during the two workshop days and then learning how to apply those skills immediately in your organisation with support from one of our expert coaches on the consultancy day.

As industry leading providers of Agile coaching and training, QA are uniquely positioned to aid your team in their development. Our experts will help your teams apply what they have learned in the context of their organisation and become effective more quickly.

Step One - Workshop

Choose the two day training workshop that best suits your team's requirements. Options Include:

Working in an Agile team

Course code: QAWAT

The purpose of this highly immersive, two-day course is to help students to understand the principles of Agile and in particular, Scrum. They will work in teams to produce a piece of work over a series of sprints. Students will experience the value of cross-functional teams and the benefits that Agile frameworks such as Scrum provide.

Duration: 2 Days

Working in an Agile team using Kanban

Course code: QAWATKB

The purpose of this highly immersive, two-day course is to help students to understand the principles of Agile and in particular, Kanban. They will work in teams to undertake a backlog of work over a series of iterations. Students will experience the value of cross-functional teams and the benefits that Agile frameworks such as Kanban provide.

Duration: 2 Days

SAFe® 4.5 for Teams

Course code: QASAFET

Build the skills needed to become a high-performing team member of an Agile Release Train (ART) and learn how to collaborate effectively with other teams by becoming a SAFe® 4 Practitioner (SP). During this two day course, attendees will gain a clear understanding of the ART, how it delivers value, and what they can do to effectively perform their role using Scrum, Kanban, and XP.

Duration: 2 Days

ICAgile Agile Fundamentals

Course code: QAICAAF

ICAgile's fundamentals learning outcomes delve into key concepts such as adaptive planning, value-driven development, team collaboration and frequent feedback for continuous improvement. The course also covers the history of the agile movement, the Agile Manifesto, the Agile Principles, and some widely applied frameworks and practices.

Course participants come away with a solid understanding of core concepts and an Agile mindset.

Duration: 2 Days

Working in a Non-Technical Agile Team

Course code: QAWNTAT

The purpose of this highly immersive, two-day course is to help students in non-technical roles to understand the principles of Agile and in particular, Scrum. They will work in teams to produce a piece of work over a series of sprints. Students will experience the value of cross-functional teams and the benefits that Agile frameworks such as Scrum provide.

Duration: 2 Days

Bespoke Tailoring

We can run a number of our courses outlined with a bespoke tailoring designed to fit the needs and requirements of your organisation. Please discuss this option with your Account Manager if you would like to learn more.

Step Two - Consultancy

As part of the Agile Accelerator, you will also receive the benefit of a day of consulting on day three from one of our expert Agile coaches. This consultancy day is intended to help you begin to implement Agile and apply the Agile mind-set within your organisation. Our expert coach will help you accelerate to agility by helping with your immediate needs. These might include planning your initial Product Backlog, helping your team with Backlog Refinement or estimation techniques. They might also provide coaching to key roles such as Product Owner or Scrum Master.
