

SAFe[®]

SAFe[®] is a new way of working that combines attributes of Lean thinking with Agile methodologies to help the world's largest organisations deliver software and systems to market faster, with higher quality and better engaged employees.

As a Bronze accredited partner, QA offers a range of courses designed to help delegates on all stages of their development journey. These are available as classroom courses or through a new range of self-paced eLearning courses to suit individual needs.

What Is SAFe[®]?

The Scaled Agile Framework (SAFe[®]) helps businesses address the significant challenges of developing and delivering enterprise-class software and systems in the shortest sustainable lead time. It is a freely revealed, online knowledge base of proven success patterns, for people building the world's most important software and systems.

Leading SAFe[®]

Course code: QASAFEL

This two-day course teaches the Lean-Agile principles and practices of the Scaled Agile Framework[®] (SAFe[®]). You'll learn how to execute and release value through Agile Release Trains, how to build an Agile Portfolio, and how to lead a Lean-Agile transformation at enterprise scale.

Attending the class prepares you to take the exam and become a certified SAFe[®] Agilist(SA).

Duration: 2 Days

SAFe[®] 4.5 for Teams

Course code: QASAFET

Build the skills needed to become a high-performing team member of an Agile Release Train (ART) and learn how to collaborate effectively with other teams—by becoming a SAFe[®] 4 Practitioner (SP).

During this two day course, attendees will gain an in-depth understanding of the ART, how it delivers value, and what they can do to effectively perform their role using Scrum, Kanban, and XP.

Duration: 2 Days

Why choose QA for your SAFe® training?

- The UK's Market Leaders in Agile training
- Industry-leading customer satisfaction rates - 99% of our delegates are satisfied with their course
- First class learning specialists -all with a minimum of 5 years training experience
- The UK's biggest network of training centres, offering you more dates and greater choice
- A broad range of delivery options: Virtual learning, E-learning, Attend from Anywhere and Video learning.

The Full SAFe configuration diagram below shows the most comprehensive version of the Framework. It supports enterprises that build and maintain large integrated solutions, which require hundreds of people or more, and includes all levels of SAFe: team, program, large solution, and portfolio. In the largest enterprises, multiple instances of various SAFe configurations may be required.
