SOLUTIONS

We work extensively with companies to develop PPM Learning Solutions that are specific to their organisational context, and that meet their needs with more than an 'off-the-shelf' course.

BESPOKE PROGRAMMES

Unique and innovative, fully supported development programmes for all levels of experience that will enable a structured career development path. A progressive and immersive learning experience in a collaborative community will help make a distinct and tangible improvement in their day-to-day performance and in overall delivery capability.

COMPASS

Competency Assessment - COMPASS is a unique online assessment tool based on internationally recognised project management standards. COMPASS is a benchmarking tool that allows targeted learning to be recommended that meets specific individual and organisational needs.

BESPOKE METHODOLOGIES

From engaging with senior executives to understand the benefits of a methodology to the creation of lifecycle documentation, at QA we can provide the complete solution to meet this end.

BESPOKE TRAINING

Whether based on a bespoke PPM methodology, or to meet a specialised knowledge gap, QA can help. Our specialists have curated their expertise to hand-write courses that meet an organisation's needs.
