

Authorised Oracle University Training Courses: Attend From Anywhere

QA is Oracle University's largest training partner in the world. All QA's Oracle Courses now run on the QA Attend From Anywhere infrastructure so it has never been more convenient for you to attend Oracle training from QA.

QA has a team of certified trainers dedicated to providing a supportive learning environment. You will acquire valuable skills and learn the latest Oracle official course content that maps to the Oracle Certification paths, ensuring you get the most from your investment in Oracle technology.

QA delivers the most popular Oracle courses; here are some examples categorised into the key areas:

- **Java:** Java SE 8 Programming training covers the core language features and Application Programming Interfaces (API) you will use to design object-oriented applications with the Java Standard Edition 8 Platform. QA is the only Oracle Approved Education Centre delivering official Java curriculum in the classroom in the UK.
- **MySQL:** MySQL for Database Administrators training is designed for DBAs and other database professionals. You will learn to install and configure the MySQL Server, set up replication and security, perform database backups and performance tuning and protect MySQL databases. QA is the only Oracle Approved Education Centre delivering official MySQL curriculum in the classroom in the UK.
- **SQL:** Oracle Database: Introduction to SQL training helps you write sub queries, combine multiple queries into a single query using SET operators and report aggregated data using group functions.
- **PL/SQL:** The Oracle Database: Program with PL/SQL training starts with an introduction to PL/SQL and then explores the benefits of this powerful programming language. You will learn to develop stored procedures, functions, packages and more.
- **Oracle Database:** The Oracle Database 12c: Administration Workshop will teach you about the Oracle Database architecture. You will discover how to effectively manage an Oracle Database instance, configure the Oracle Network Environment and perform database maintenance.
- **Solaris:** The Oracle Solaris 11 System Administration training covers the full range of introductory system administration tasks on Oracle Solaris 11.3 OS. The topics covered range from installing the operating system on a single system, to monitoring and basic troubleshooting. The course is designed to provide new system administrators, as well as enterprise system administrators who are new to the Operating System, with the skills they need to perform their job tasks successfully and efficiently.
- **Big data:** The Oracle Big Data Fundamentals course will teach you to use Oracle's Integrated Big Data Solution to acquire, process, integrate and analyse Big Data.

Note: QA can also resell all of the 3000+ Oracle courses available

Convenient & Flexible Learning Options

Instructor-led Classroom

Join an Oracle course at one of our nationwide training centres for an interactive, hands-on learning experience.

Attend from Anywhere

Can't make it to a training centre? You can join the class virtually from the comfort of your own home or office, without losing the classroom experience.

On-site Courses

If you have a team to train, QA can come to your company's office or site of your choice to deliver the course you need.

Top 3 reasons to certify:

1. Validate your skill-set, knowledge and expertise on Oracle.
2. Develop credibility amongst employers, colleagues and the IT industry.
3. Gain recognition for your expertise.

Oracle Certifications

Why not validate the knowledge and skills you have learnt with an official certification.

Oracle certifications recognise individuals who demonstrate knowledge, skills and proficiency with Oracle technology.

Developers and System Administrators have the opportunity to achieve credentials at two proficiency levels: Associate or Professional.

Database Administrators have the opportunity to achieve credentials at three proficiency levels: Associate or Professional or Master.

Most Popular Certifications

Database Administrators

Oracle Database 12c Administrator Certified Associate

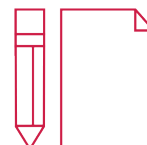

Oracle Database 12c Professional Certified Professional

System Administrators

Oracle Solaris 11 System Administrator Certified Associate

Oracle Solaris 11 System Administrator Certified Professional

Developers

Oracle Java SE 8 Programmer Certified Associate

Oracle Java SE 8 Programmer Certified Professional

Top 3 reasons to choose QA

QA's curriculum continuously grows alongside the development of Oracle products and services.

QA has more than 20 nationwide training centres.

QA has trained leading organisations across a variety of business sectors in Oracle technologies.

Hear what some of our customers are saying about joining QA classes virtually:

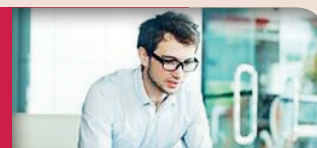

"Everything worked well - I wasn't in anyway disadvantaged by not being ,on location"

Terry Tysoe
Bedfordshire Police

"It was easy to communicate with the trainer - we used the e-remote or just unpressed mute"

Leslie Butler
Yorkshire Bank

"I would highly recommend - I want all my training delivered in this way from now on"

Bill Kirby
Ageas
