SOMETHING MISSING? NO PROBLEM.

QA have a catalogue of over 1,500 training courses which you can bolt-on to your programme.

Training from 'IT Technical' to 'business skills' to tailor your programme for your apprentice's role in your business.

Bolt-on courses come at an additional cost, and can't be funded using your levy/apprenticeship funding. They are available at a significant discount off of RRP for apprentices.

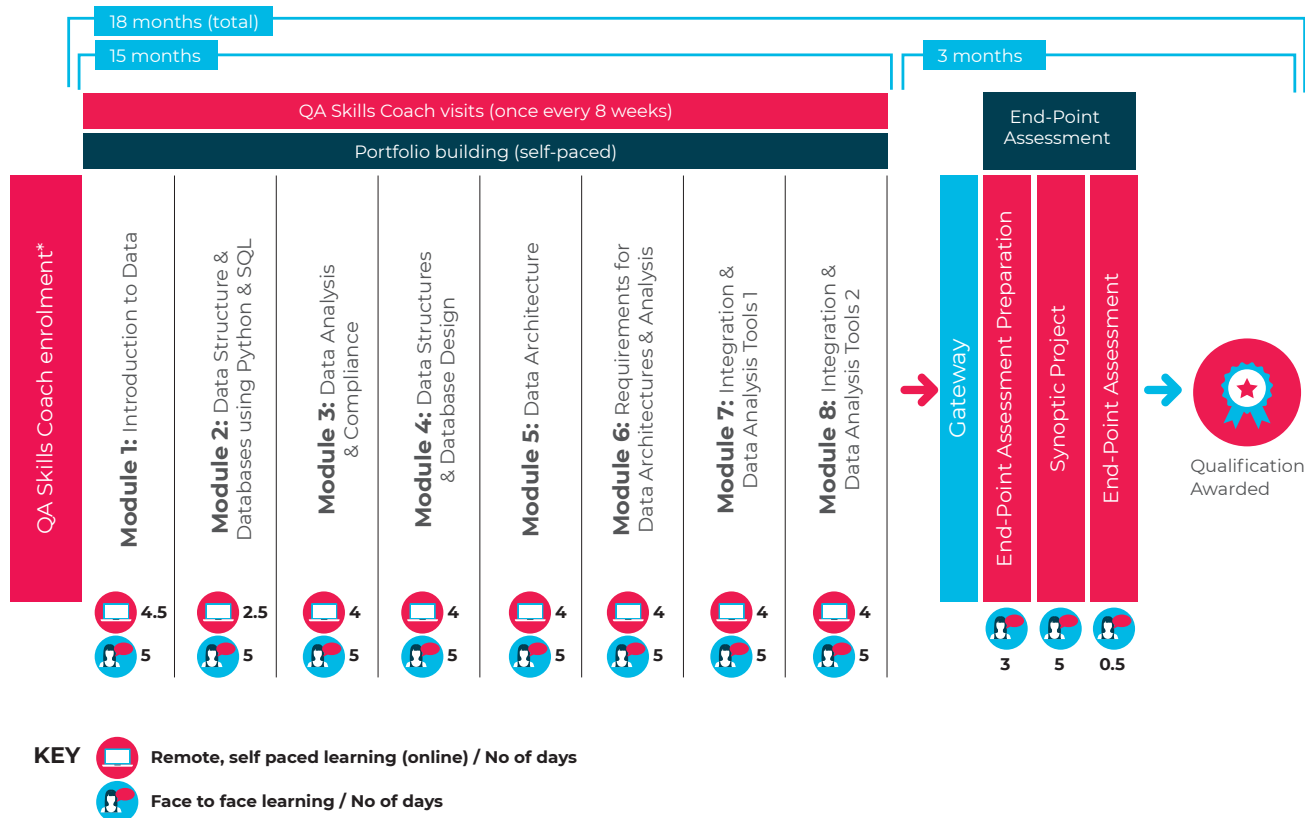

Have a large volume of over 30 people you want to sign up? QA's apprenticeship solution experts can help you tailor your own technology programme.

Take the next step in building the skills your business needs, get in touch today.

QA.com

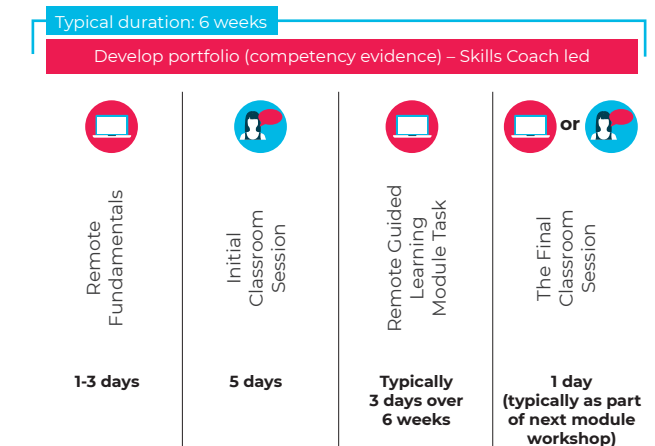

QA's programme is an apprenticeship like no other. It is completely unique, delivered through a leading-edge, innovative approach to challenge-based learning, using online learning, practical exercises, video content, coaching and workshops to enable accelerated and proficient skills development.

Our Data Analyst Level 4 apprenticeship develops your team to collect, organise and study data to provide business insight. The learner journey below shows the learning outcomes of the programme and how it is typically arranged.

CHALLENGE-BASED APPROACH

How each module works

*Level 2 functional skills, English and maths will need to be passed (if not already) and certificates presented, prior to taking the end-point assessment. This will be discussed at enrolment.

Evidencing 20% off-the-job learning

We are the apprenticeship experts and can help advise you on how best to do this. Our programme facilitates off-the-job learning, as it has been developed with online learning and on-the-job learning, as well as classroom training. This 20% must be done in working hours.
