

VMware Training and Certifications

Choose your path to success.

- We are recognised as a VATC (VMware Authorised Training Centre) and have 5 VCI's (VMware Certified Instructors).
- VMware Certification sets the standard for IT professionals and validates the critical skills organisations need to adopt and manage technology that drives desired business outcomes.
- VMware certifications cover multiple technology areas, with levels suited to those new to the industry as well as experts in the field. VMware certification gives you flexibility to find the path that suits your needs.

VMware Certified Technical Associate – VCTA

- For Operators
- This entry-level technical certification is for anyone new to the industry or advancing their careers who perform operational tasks typically delegated by administrators of virtualized environments.

VMware Certified Professional – VCP

- For Administrators and Engineers
- This level is designed for IT professionals who install, configure, manage, and optimize VMware solutions.

VMware Certified Advanced Professional – VCAP

- For Administrators, Architects and Engineers
- The advanced level certifications are for those who design and build VMware Solutions (VCAP Design), manage and optimize (VCAP Deployment) VMware solutions.

VMware Certified Design Expert – VCDX

- For Architects
- The highest level of VCDX certification, VCDX recognizes IT professionals who design, build, and manage VMware solutions and systems.
