Existing IS Business Analysts who would benefit from a structured qualification to build on their skills
Existing people at your organisation informally involved in IT projects wanting to move into a full time IS Business Analyst position
New hires into IS Business Analyst roles

SOMETHING MISSING? NO PROBLEM.

QA have a catalogue of over 1,500 training courses which you can bolt-on to your programme.

Bolt-on courses come at an additional cost, and can't be funded using your levy/ apprenticeship funding. They are available at a significant discount off of RRP for apprentices.

Have a large volume of over 30 people you want to sign up?

QA's apprenticeship solution experts can help you tailor your own technology programme.

QA's programme is an apprenticeship like no other. Delivered through a leading-edge, innovative approach to challenge-based learning. Using online learning, practical exercises, video content, coaching and workshops to enable accelerated and proficient skills development.

DISCOVER, PRACTICE AND APPLY

Discover, practice and apply are the three pillars of apprenticeship learning. No matter what part of the apprenticeship a learner is on, discover, practice and apply are combined into each activity.

Discover

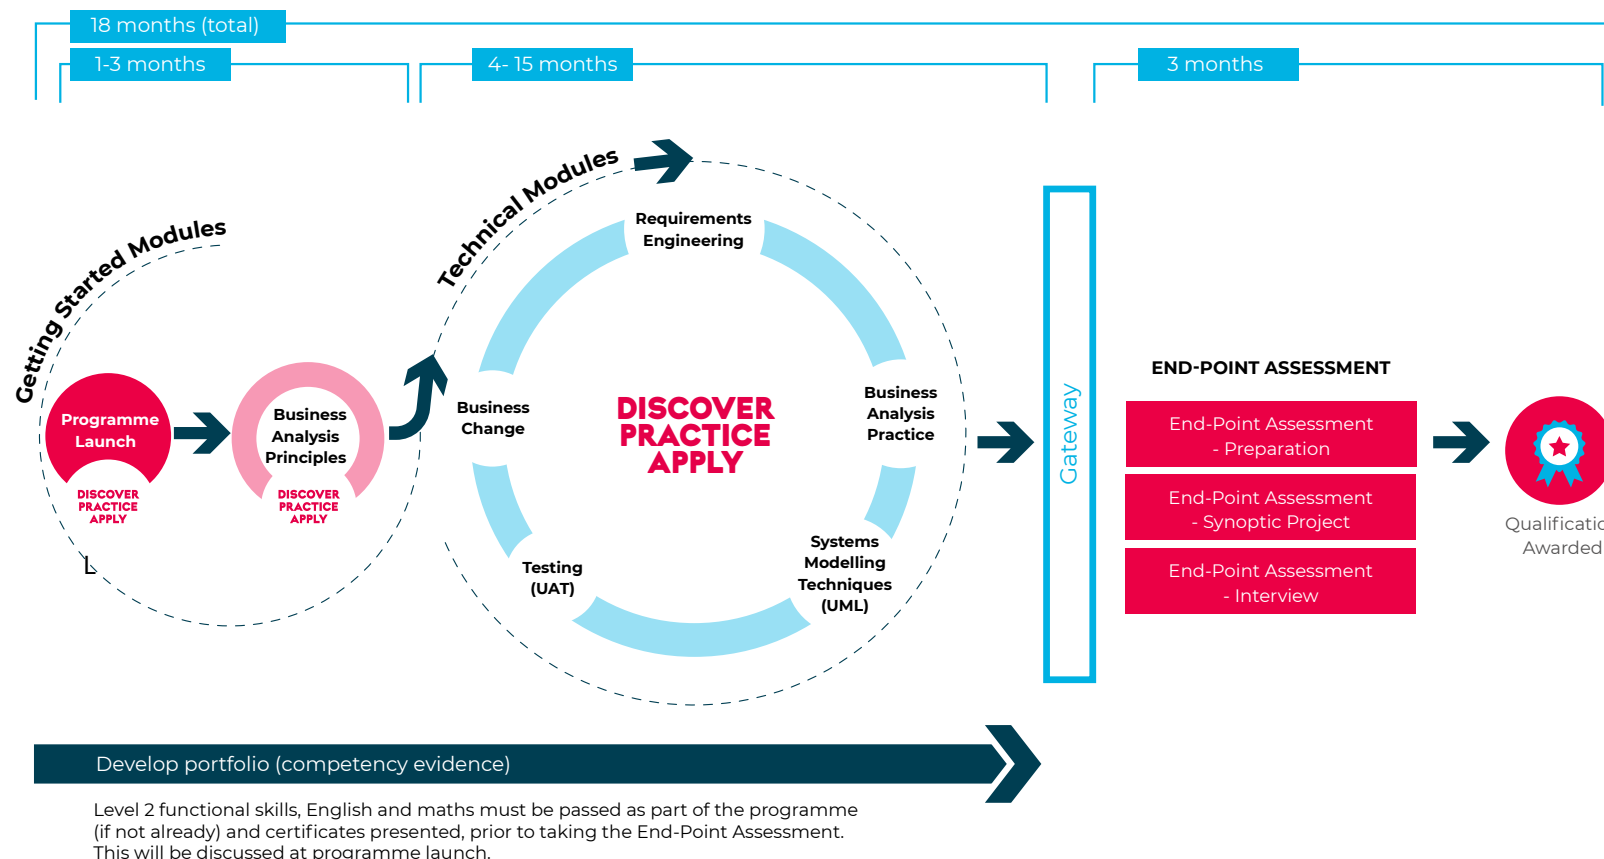

Learners will learn the theory, by exploring subjects online and in the classroom.

Practice

Learners will practice their new-found knowledge by completing activities - online, in the classroom and (most importantly) directly at work in their day-to-day role.

Apply

Learners will apply what they've discovered and practiced at work. They will actively contribute to your organisation whilst building their portfolio of evidence (showing how they've applied their new skills) to gain their qualification.

Evidencing 20% off-the-job learning

We are the apprenticeship experts and can help advise you on how best to do this. Our programme facilitates off-the-job learning, it's been developed with online learning and on-the-job learning, as well as classroom training. This 20% must be done in working hours.
