

Transform the digital skills in your organisation with the Government Incentive scheme

Everyone's digitising their business right now and this has created an unprecedented demand for digital skills. Apprenticeships offer a great way to bring new talent into your business and you can receive up to £4000 for taking on a new apprentice.

Our award-winning digital apprenticeships cover the most in-demand tech skills such as cyber, IT, software development, data and digital marketing, and we offer programmes from Level 3 (GCSE) right up to Level 7 (Masters).

Employers can receive up to £4,000 for each new apprentice

Between 1 April 2021 and 31 January 2022 employers will receive:

- **£3,000 per new hire**, regardless of the apprentice's age
- An **additional £1,000** if the apprentice is aged 16 to 18 years old, or those under 25 with an Education, Health and Care Plan.

Senior Leader Higher Apprenticeship

Our digital apprenticeships are delivered as immersive role-based projects with access to hands-on sandboxed labs to practise and apply their skills. This ensures learners develop further and faster with skills relevant to their role and organisation, enabling them to add immediate value.

Employers benefit from our exclusive dashboard system which tracks progress reviews and is updated in real time, allowing for quicker and more efficient management of apprentices. This is why 46 of the UK's top 100 apprenticeship employers have chosen QA apprenticeships since 2017.
