

ACCELERATE YOUR DATA CAPABILITIES

WITH AMAZON WEB SERVICES (AWS)
DATA ANALYST LEVEL 4 APPRENTICESHIP

Is it time to rebuild your current data-driven efficiencies?

An astounding 31% of hiring managers reported an increase in revenue as a result of levelling up their employees' data skills¹. Having the ability to interpret and apply the data your team is given, can propel your business into a realm of endless growth. Levy-funded apprentices through QA can equip businesses with AWS certified, trained and ready-to-work talent.

As the **#1 UK provider of tech and digital apprenticeships**, we have the expertise and scale to support both small and large businesses with talent solutions.

QA delivers 70% of the UK's cloud training and offers unique and unrivalled access to vendor certifications such as AWS and all other major tech qualifications.

Through our award-winning Digital by Design (DXD) learner support model, **97% of our learners pass on 1st attempt.**

DXD ensures QA apprentices are successful and bring value to your business from day one.

For non-levy paying employers, **we can help businesses explore opportunities to partner with larger organisations** to participate in a levy transfer scheme.

The AWS Data Analyst Level 4 apprenticeship is a 17-month programme designed to arm learners with the core concepts of data analytics, data structures, data visualisation, and tools for data integration.

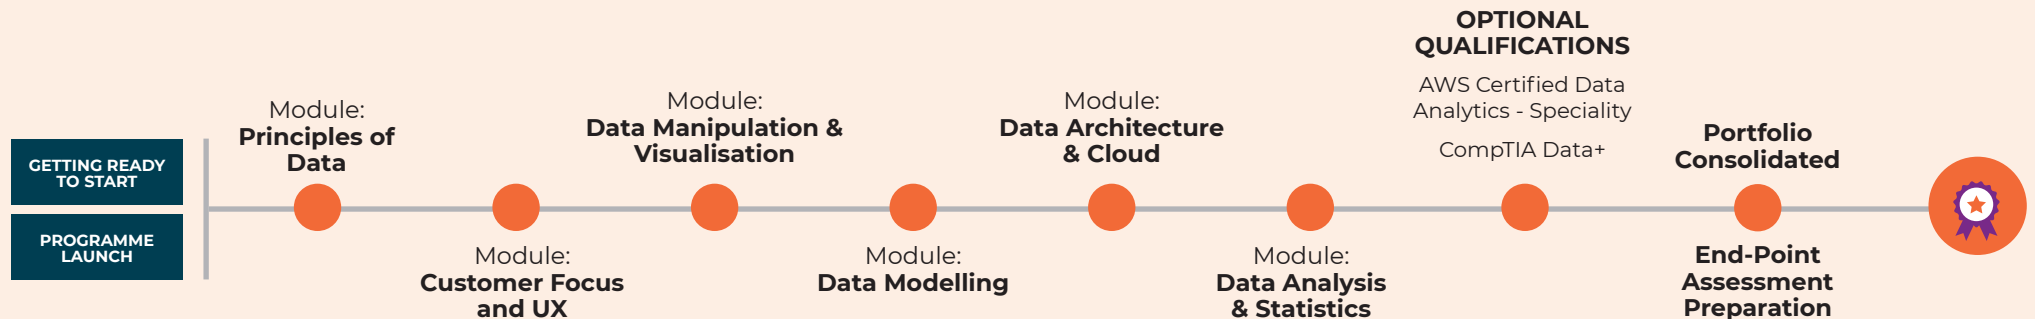

1 Apprentices are equipped with a solid understanding of identifying, collecting, migrating and the interpretation of data.

2 Apply-based activities ensure an apprentice has mastered practical skills through the programme.

3 The programme focuses on giving learners a well-rounded ability and competence to working as a successful Data Analyst.

 **PROGRAMME DURATION:** 17 Months (14 months practical + three months End-Point Assessment)

This programme is suitable for organisations looking to scale capability in their organisation and is only available for closed cohorts.

ROLES THAT CAN SUPPORT YOUR BUSINESS THROUGH THIS LEVY-FUNDED PROGRAMME:

- Data Analyst
- Departmental Data Analyst (e.g. HR, Marketing, Sales etc)
- Problem Analyst
- Junior Analyst
- Marketing Data Analyst
