

# Network Analyst

## SCQF Level 6

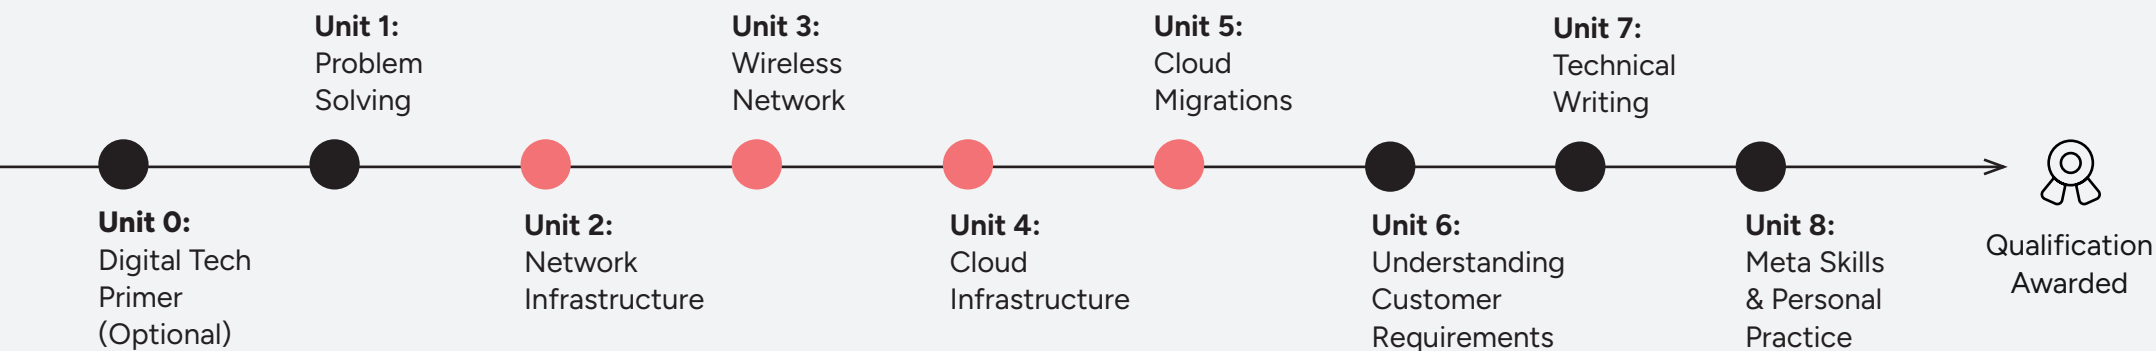

AI Training in every programme

The demand for skilled network analysts is high.

By training apprentices, you help bridge the skills gap in the industry and ensure a steady pipeline of qualified professionals. The QA programme teaches all the skills necessary to support business network services. **AI skills training now included in all our apprenticeship programmes.**

### What's learned: 12 month duration

- Technical and Professional Skills Units
- Core Units

## The Programme Advantage

**Technical Skills:** From networking protocols to cloud services and troubleshooting.

**Soft Skills:** Analytical thinking, clear communication, attention to detail

**Teamwork:** Apprentices learn to work well in a team environment and collaborate with other IT professionals.

## What It Brings to Your Business

**Cost-Effective Talent:** Apprenticeships are a cost-effective way to bring in new talent, which can help manage budget constraints while still getting valuable work done.

**Skill Development:** Apprenticeships combine on-the-job training with classroom learning. This dual approach helps them develop a well-rounded skill set tailored to your organisation's needs.

**Support for Experienced Staff:** Apprentices can take on routine tasks and support more experienced staff, allowing them to focus on more complex and strategic projects.

## Our Pledge to Your Success

**Quality Assurance:** We ensure your learners receive the finest training, relevant to the demands of today's business world.

**Ongoing Support:** Our commitment extends beyond training; we provide a robust support system for both the learner and the employer throughout the qualification journey.

**Customisable Programmes:** We recognise the uniqueness of your business needs and offer flexible training structures to align with your goals.

"Our apprentice has changed the dynamic within our team and, with a refreshing attitude has brought new life and upbeat energy to the team."

Tom Reid, Information Analyst, Digital, NHS Lanarkshire
