

Teach The Nation

Web Development Workshops

Free, interactive 4 hour sessions

Workshops are available online

Helping you expand your skillset and stand out in a competitive job market, our website development workshops are:

Flexible

Our workshops are available online, with some sessions strategically scheduled on weekends making them accessible to everyone, regardless of background or previous knowledge in tech.

Bite-sized

4-6 hour interactive and engaging sessions carefully crafted to keep you engaged and motivated throughout the training.

CV boosters

Upon completion, you will receive a QA certificate of achievement and badge, the perfect symbols to proudly showcase your newly acquired skills and supercharge your CV and LinkedIn profile.

In tune with technology trends

Our workshops are designed to give you the foundational knowledge to help kickstart your career in tech. We have tailored the workshops to cover the most relevant content for you to stay up to date with the latest tech trends.

Is it for me?

If you are passionate about learning new skills – our workshops are designed for you! These sessions cater to all backgrounds and knowledge levels, so you are likely to find a category that suits you.

Tech enthusiasts

Whether you're looking to make smarter business decisions, considering a career in tech, or simply aiming to enhance your CV, our workshop offers a supportive environment to help you succeed at every step of your journey.

Professionals

Whether you're looking to build your first app, explore career opportunities in tech, or enhance your coding skills, this workshop will give you the tools and confidence to pursue your development goals.

Content creators

Whether you are a blogger, writer or content creator, you can use HTML and CSS to customise your website and improve the presentation of your content, enhancing the user experience.

Marketing professionals

As a marketer, you can employ HTML and CSS to create effective landing pages, promotional materials, and email templates. This knowledge provides a subtle yet powerful way to attract and engage customers without overwhelming them.

Aspiring web designers

If you're passionate about creating visually appealing websites, our workshops are the perfect fit for you. Learn how to use HTML and CSS to design web pages - essential skills that can help you effectively showcase your portfolios online.

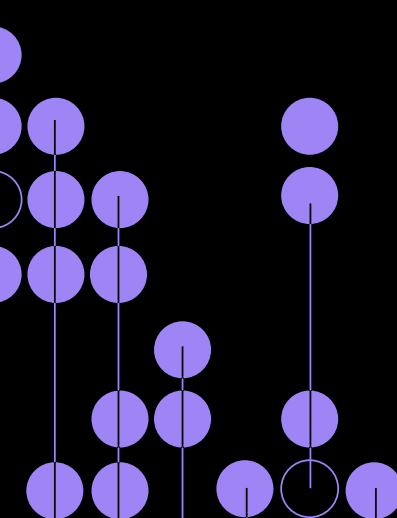

Students and hobbyists

For the curious minds interested in web development, our workshops are perfect for personal projects and hobbies, such as setting up a blog or an online portfolio. HTML and CSS are essential tools that empower you to unleash your creativity and bring your digital ideas to life.

Small business owners

Our workshops are practical for establishing your business's online presence. Picture this: a restaurant owner creating a simple website to showcase the menu, location, and contact details—HTML and CSS can make this accessible.

What will I learn?

Our web development workshop is designed to empower you with the confidence and foundational knowledge needed to craft dynamic web applications. Participants will not only grasp the essentials but will be well on their way to creating cutting-edge, modern web applications using HTML, CSS, and JavaScript technologies.

- Understand how websites are put together and function
- What is front-end development
- How to structure data with HTML
- How to transform the look and feel via CSS
- How to make your app interactive with JavaScript
- Create web pages using HTML and CSS, even make a simple static website

By the end of the workshop, you'll be able to:

Build static websites

Create your own static websites using the fundamental languages of HTML and CSS. From layout to design, you'll have the know-how to create websites that stand out.

Understand web applications

Gain an understanding and inner working that drive these applications, providing you with valuable insights into the world of web development.

When can I attend?

We have many online workshops taking place throughout the year.
