Understanding SAFe® for scaling agile

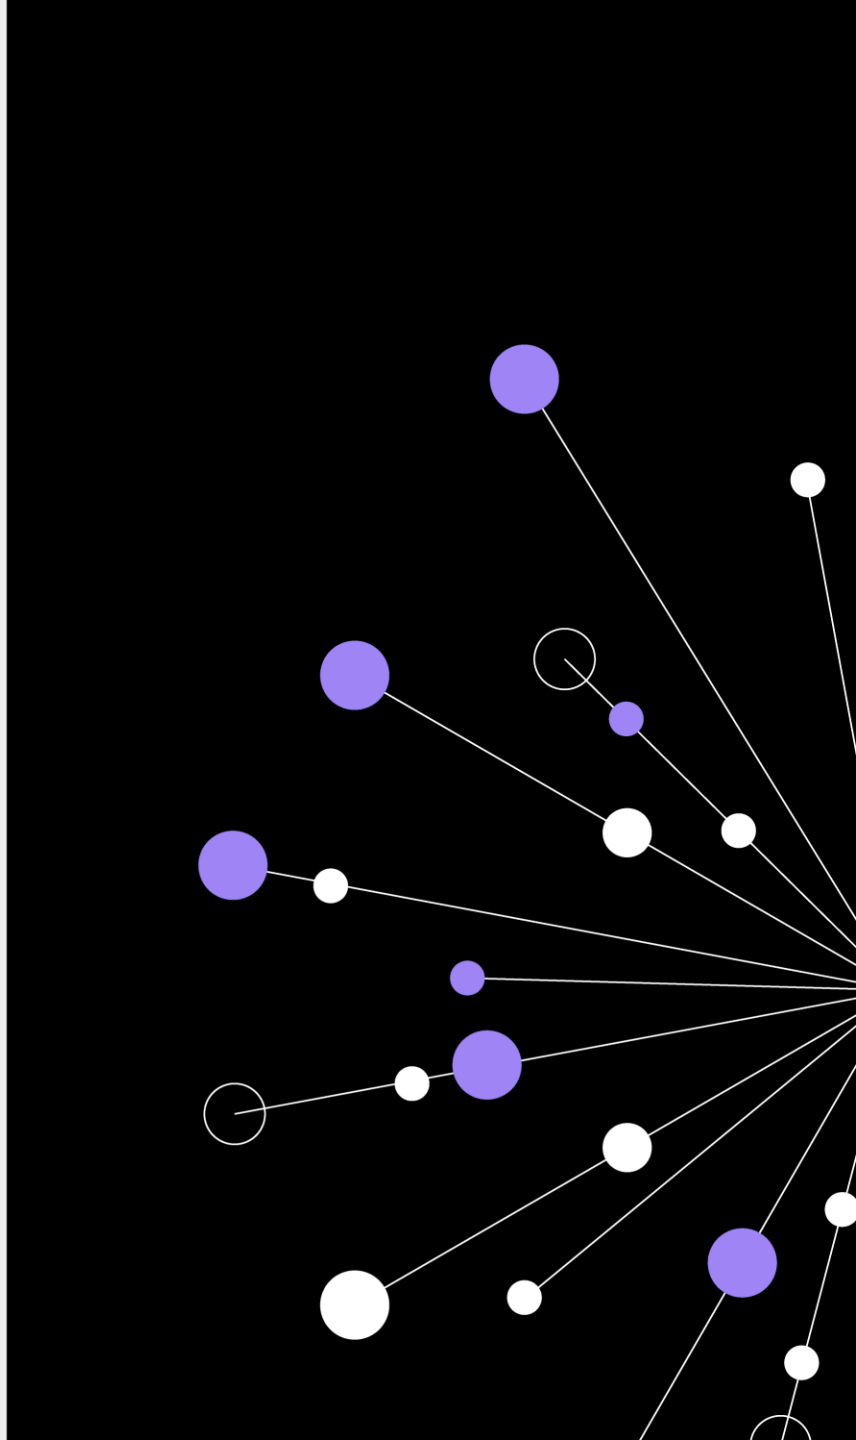
Tony Cotgrave

QA

Learn. To Change.

FAQ’s

- **Will the session be recorded? – Yes! You will be sent an email to relevant links**
- **Can we have a copy of the presentation? – Yes! A pdf will be made available www.qa.com/resources/events :-**



Learning objectives

Understand the Need for Scaling Agile – Explore the challenges of Agile adoption at an enterprise level.

Gain an Overview of SAFe® – Learn the structure and components of the Scaled Agile Framework.

Identify Key SAFe® Roles and Responsibilities – Understand how leaders, Agile teams, and stakeholders collaborate in a SAFe® environment.

Recognise SAFe® Planning and Execution Processes – Discover how SAFe® enables strategic alignment through PI Planning and Agile Release Trains (ARTs).
