# Teach The Nation

Cloud Computing Workshops

Free, interactive 4 hour sessions

Workshops are available online

Helping you find your potential in tech, our cloud computing workshops can broaden your skillset, enabling you to excel and advance in this rapidly evolving field of technology.

Flexible

Our workshops are available online, with some sessions strategically scheduled on weekends making them accessible to everyone, regardless of background or previous knowledge in tech.

Bite-sized

4-6 hour interactive and engaging sessions carefully crafted to keep you engaged and motivated throughout the training.

CV boosters

Upon completion, you will receive a QA certificate of achievement and badge, the perfect symbols to proudly showcase your newly acquired skills and supercharge your CV and LinkedIn profile.

In tune with technology trends

Our workshops are designed to give you the foundational knowledge to help kickstart your career in tech. We have tailored the workshops to cover the most relevant content for you to stay up to date with the latest tech trends.

A QA Initiative.

Is it for me?

If you are passionate about learning new skills – our workshops are designed for you! These sessions cater to all backgrounds and knowledge levels, so you are likely to find a category that suits you.

Tech enthusiasts

Whether you're exploring ways to make smarter business decisions, considering a career in cloud, or just looking to enhance your CV, our workshop provides a supportive environment for your journey.

Cloud professionals

This session gives participants the fundamental knowledge required to understand cloud technologies as well as a practical understanding of what they are and how they work.

Web developers

These workshops are beneficial for web developers who want to leverage cloud services to effectively provide faster innovation and flexible resources delivered over the internet. One of the primary benefits of cloud computing in website development is the elimination of storage space concerns.

IT professionals

These sessions are relevant for professionals who want to stay up to date with the latest cloud technologies and boost their career prospects.
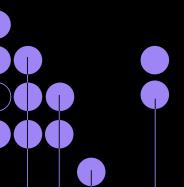

Students and hobbyists

Learning cloud computing isn't just for those aiming for tech careers. If you are a hobbyist who finds joy in creating modern solutions to existing problems, that is also a great reason to develop cloud computing skills.

Entrepreneurs

Entrepreneurs who want to gain an understanding of cloud service models, enabling them to reduce IT costs and increase business flexibility would also benefit from these sessions.

What will I learn?

Our cloud computing workshop is designed to equip you with the essential knowledge and confidence needed to harness the power of the cloud. You'll gain valuable insights into cloud services and learn to leverage them effectively to unlock your potential. Participants will explore various cloud service models, understanding how they offer businesses greater flexibility while driving down IT costs.

- Empower your knowledge and tap into the potential of the cloud

- Unlock new possibilities for businesses by increasing flexibility and reducing IT costs

- Make informed decisions in a cloud-first world

By the end of the workshop, you'll be able to:

Gain hands-on experience to effectively work in a cloud-based environment

Gain a deep understanding of cloud service models

Make the cost-effective move to a cloud platform

When can I attend?

We have many online workshops taking place throughout the year.
